

Clinical Neuropsychology Externship at Beth Israel Medical Center, Department of Neurology

Extern training will focus on neuropsychological examination of adult and pediatric populations. Primary responsibilities include outpatient assessment of individuals with epilepsy, Parkinson's disease, and language based learning disabilities, although externs also will gain experience working with other neurological populations, such as dementia and stroke. There additionally will be opportunities to observe cortical language mapping and Wada procedures and to be involved in independent research projects. Attendance at weekly didactics including pediatric epilepsy and movement disorders case conferences and journal clubs is mandatory. Supervision will be provided by a board certified neuropsychologist.

Externs must be available on Tuesdays and Wednesdays throughout the 2009-2010 academic year. For additional information, please contact cpalmese@chpnet.org.

Applicant should send a letter of interest, c.v., and two letters of recommendation to the email address above or to:

Christina Palmese, Ph.D., ABPP-CN
